# INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No. PCT/GB2004/003380

_							
	Во	x No. I	Basis of the re	port			
1.	. Wit	ith regard to the <b>language</b> , this report is based on the international application in the language in which it was led, unless otherwise indicated under this item.					
		This re	eport is based on is the language o	translations from the f a translation furnish	original language into the	ne following language	e ,
		☐ pui	olication of the inte	(under Rules 12.3 and ernational application ary examination (und	d 23.1(b)) (under Rule 12.4) er Rules 55.2 and/or 55	3)	
2.	With regard to the elements* of the international application, this report is based on (replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report):						
	Des	scription	, Pages				
	1-17	7		as originally filed			
Claims, Numbers					2 30		
	1-21	1		as originally filed			V.
	Drawings, Sheets						
	1/5-	5/5		as originally filed			
		a sequ	ence listing and/o	any related table(s)	- see Supplemental Box	Relating to Sequen	ce Listing
3.		The an	nendments have r	esulted in the cancell	ation of:		
		☐ the	description, page: claims, Nos.	3			
		☐ the	drawings, sheets/				
			sequence listing ( table(s) related to	specify): sequence listing <i>(sp</i>	ecify);		
4.	nau	not bee	port has been est on made, since the tal Box (Rule 70.2	ev nave been conside	of) the amendments and red to go beyond the di	nexed to this report a sclosure as filed, as	nd listed below indicated in the
			description, pages	3			
			claims, Nos. drawings, sheets <i>l</i> i	igs			
		☐ the	sequence listing (		ecify):		
	*	If $it\epsilon$	em 4 applies,	some or all of	these sheets may l	oe marked "supe:	rseded."

# INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No. PCT/GB2004/003380

	Box No. I	Basis of the report
1.		d to the <b>language,</b> this report is based on the international application in the language in which it was s otherwise indicated under this item.
	☐ This rewhich	eport is based on translations from the original language into the following language , is the language of a translation furnished for the purposes of:
	□ pub	ernational search (under Rules 12.3 and 23.1(b)) plication of the international application (under Rule 12.4) ernational preliminary examination (under Rules 55.2 and/or 55.3)
2.	have been	d to the <b>elements*</b> of the international application, this report is based on (replacement sheets which furnished to the receiving Office in response to an invitation under Article 14 are referred to in this originally filed" and are not annexed to this report):
	Description	ı, Pages
	1-17	as originally filed
	Claims, Nu	mbers
	1-21	as originally filed
	Drawings, S	Sheets
	1/5-5/5	as originally filed
	□ a sequ	ence listing and/or any related table(s) - see Supplemental Box Relating to Sequence Listing
3.	☐ the ☐ the ☐ the ☐ the	mendments have resulted in the cancellation of: description, pages claims, Nos. drawings, sheets/figs sequence listing (specify): v table(s) related to sequence listing (specify):
4.	had not be Supplemer    the the the the the the	eport has been established as if (some of) the amendments annexed to this report and listed below en made, since they have been considered to go beyond the disclosure as filed, as indicated in the stal Box (Rule 70.2(c)).  description, pages claims, Nos.  drawings, sheets/figs sequence listing (specify):  v table(s) related to sequence listing (specify):
	* If it	em 4 applies, some or all of these sheets may be marked "superseded."

# INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

#### Re Item V.

Ü

1 The following documents are referred to in this communication:

D1: WO 97/05018 A (GLAXO GROUP LTD; BONNEY STANLEY GEORGE (GB); WILSON ALAN ANTHONY (GB)) 13 February 1997 (1997-02-13)

D2: US 3 306 323 A (THEODORE ARONSON) 28 February 1967 (1967-02-28)

D3: EP 1 055 601 A (RICOH KK) 29 November 2000 (2000-11-29)

#### 2 INDEPENDENT CLAIM 1

2.1 The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claim 1 is not new in the sense of Article 33(2) PCT.

Document D1 discloses (the references in parenthesis applying to this document): a method of filling with powder (15) a container (12) having an open end, the method including: positioning an outlet (14) of a hopper (11) containing powder (15) above the open end of the container (12); mechanically agitating the hopper so as to cause powder to be transferred from the hopper to the container; and mechanically agitating the container; wherein the steps of mechanically agitating are conducted by at least a predetermined amount sufficient to ensure that the container is filled with powder at a predetermined density.

Thus D1 shows all the features of claim 1. Claim 1 defines broadly the agitating steps and gives results to be achieved rather than expressly indicate how the predetermined density is controlled.

- 2.2 Similarly also Document D2 discloses (see passages cited in the International Search Report) all the features of claim 1.
- 2.3 Similarly also Document D3 discloses (see passages cited in the International Search Report) all the features of claim 1.
- 3 INDEPENDENT CLAIM 20

### INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY (SEPARATE SHEET)

PCT/GB2004/003380

3.1 The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claim 20 is not new in the sense of Article 33(2) PCT.

Document D1 discloses (the references in parenthesis applying to this document): a method of simultaneously filling with powder (15) a plurality of containers (12) having respective open ends, the method including: providing a hopper (11) having a plurality of outlets positioning the plurality of outlets above corresponding open ends of the containers (12).

The simultaneous conducting of this method with the method of claim 1 it is not understood as a limitation of the claim

#### 4 INDEPENDENT CLAIM 21

4.1 The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claim 21 is not new in the sense of Article 33(2) PCT.

Document D2 discloses (the references in parenthesis applying to this document): an apparatus (20) for filling with powder a container (34) having an open end, the apparatus including: a support (31) for the container (34); a hopper (42) having an outlet and being selectively moveable relative to the support to position the outlet above the open end of a supported container (34); a dispenser (46) for mechanically agitating the hopper (42) and container (34) so as to cause powder to be transferred from the hopper to the container; and a controller (53a,53b,56,57,62) for operating the dispenser by at least a predetermined amount sufficient to ensure that powder in the container reaches a predetermined density.

Thus D2 shows all the features of claim 21.

DEPENDENT CLAIMS 2-5, 7, 8 10, 13, 14, 16-19
Dependent claims 2-5, 7, 8, 10, 13, 14, 16-19 do not contain any features which, in combination with the features of any claim to which they refer, meet the requirements of the PCT in respect of novelty and/or inventive step (Article 33(2) and (3) PCT).
